ONE TEAM—GLOBALLY CONNECTED

FREIGHT FORWARDING

SMART Supply Chain Services' (SSCS) professional team of experienced and qualified freight forwarders and customs coordinators have experienced every scenario of global import and export shipment coordination and management. SSCS ensures that all modes of transport interconnect seamlessly.

Sea Freight

SSCS maintains and cultivates a global network of contacts with various global shipping companies where customers receive the best rates and opportunities for various modes:

- Consolidated frameworks
- LCL and FCL cargo shipping
- All major destinations for pick-up and delivery
- Customization

Ground Transport

SSCS' ground team handles transportation of goods by rail and road with an extensive network of services, including:

- LTL and FTL
- Last mile
- GPS tracking
- Documentation

Air Cargo

SSCS ensures safe and timely air transport at the best rates with full customs management. SSCS also manages the hand-off from air to rail or ground, manufacturing location, to distribution and end location, including:

- Price and shipper efficiencies
- Custom checking and preparation
- Door-to-door delivery
- Storage and distribution

Warehouse and Distribution

SSCS maintains facilities all over the world that facilitate warehousing and distribution for any customer. ISO certified, SSCS offers the following warehousing services:

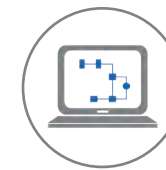

- 3PL - 5PL services
- Cross-dock logistics
- Kitting
- Intermodal transport

Multi-Modal

Considerations such as speed, the price of freight transport, the environment, and even local transportation infrastructures can play a role in the choice of shipping modes. SSCS helps with the following:

- Time savings
- Cost-efficiency
- Shipping transparency
- Ongoing communication

Customs Formalities

In addition to the customs documentation, we also provide the preparation of origin documentation, including the following customs services:

- Import and export declarations
- Handling transport documentation
- Preparation and authentication of documents of origin
- Preparation of waivers

LOGISTICS

1) Project Freight Management: Equipped with highly qualified and experienced specialists within all aspects of project transportation, SSCS offers global door-to-door services with a goal to achieve efficient and cost-effective transport solutions.

2) Feasibility Analysis: SSCS prepares preliminary analysis, evaluates expenses and costs, component sourcing, and reviews all the data to execute the ideal end-to-end efficiency for a successful supply chain solution.

Project Freight Management

Identifying and plotting the risks of freight management requires experience and expertise. SSCS has worldwide experience to deliver customized solutions for worldwide freight management.

- Guaranteed delivery
- Transparent cost-analysis
- Cost-reducing consolidated, specific cargo solutions
- Inspection and expediting

Feasibility Analysis

SSCS continually studies and explores the best options for its customers on transport solutions, including warehouse and distribution options. Our global team of specialists provides insight into:

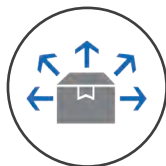

- Transport modality research
- Storage and warehouse planning
- Project execution optimization
- Risk analysis

Shipping & Freight Forwarding

SSCS specializes in arranging shipping and storage, including tracking inland transportation, document prep, warehousing, booking cargo space, and negotiating freight charges. This includes worldwide ocean and air freight forwarding and local, national, and over the border trucking.

- LTL (less than truckload)
- FTL (full truckload)
- Flatbed, oversized and specialty loads
- IPI (Inland point intermodal/rail & road)

3PL & 5PL

From manufacturing logistics to fifth-party logistic services, SSCS can vertically integrate managed basic logistics and distribution to constructing a sophisticated, integrated logistics plan that best serves multiple customers.

- 1PL - Contract Manufacturing/ Factory Order Management
- 2PL - Freight forwarding and customs brokerage
- 3PL - Worldwide distribution facilities
- 4PL - Strategically manage 3pl on behalf of the customer to package and deliver to end customers
- 5PL - Managing of the complete supply chain network from sourcing to production to delivery

Industry Expertise

SSCS has expertise in a wide variety of specific industries and understands the requirements to determine the most ideal logistics scenarios for the most sensitive situations

- Hi-Tech
- Retail & eCommerce
- Medical
- Energy
- Aviation & aerospace

CUSTOM BROKERS

For decades, SCCS has provided quality and affordable logistics services to a myriad of customers and partners, including customs brokerage, courier and import services, to NVOCC freight forwarding, and have increased our global service footprint to Canada, Europe, Asia and Oceania, utilizing EDI services to automate and expedite shipping needs.

As a member of the world's largest independent freight network, we have the strength and reliability of over 7,200 partner offices in 191 countries, covering more than 843 cities and ports worldwide.

Administration & Security Initiatives

SSCS can coordinate and manage every facet of customs' paperwork, from the smallest detail to the most complex customs' situations, including:

- Cargo insurance
- Import bonding
- Special permitting
- Best practice consulting
- C-TPAT, IASSP & WCO S

Expediting

SSCS handles drayage, including harbor container trucking, warehousing and distribution of product, which includes the following:

- Local drayage
- National drayage
- Container stripping & stuffing
- Segregation
- Palletization
- Pick & pack

LOCATIONS

When you partner with SCCS, you are partnering with a company that has contacts and facilities around the globe to coordinate, manage, and pass the baton to the next partner in shipping and logistics. Every global partner represents a specific expertise or suite of experience and knowledge to move and expedite product from origin to final destination through the supply chain.
